## Additional Authorized Access

As a Missouri S&T student, you can grant other users direct and authorized online access to your student information, which may include, but is not limited to, schedule of classes, grades, financial aid, and student financial account information. In authorizing Additional Authorized Access members, you acknowledge that the University is not responsible for any unauthorized disclosure of your student information by your registered members.

Below is a list of those members to which you have granted access.

Add Member

Name	Email Address	Student Account Info	Academics Info	Directory Info	Financial Aid
Fake Father Name	fakefather@emailaddress.com				
Fake Mother Name	fakemother@emailaddress.com				

## FERPA Permission

The Family Educational Rights and Privacy Act (Buckley Amendment) prohibits access to, or release of, educational records or personally identifiable information contained in such records (other than directory information) without the written consent of the student or as specified by other exceptions such as subpoenas and court orders. Please see this web site for full explanation and regulatory exceptions: [http://www.umsystem.edu/ums/rules/collected\\_rules/information/ch180/180.020\\_student\\_records](http://www.umsystem.edu/ums/rules/collected_rules/information/ch180/180.020_student_records).

Students may not select subsections of academic records to be released. In other words, a student may not give a parent access to billing information, but not to grades. Generally, this release will cover all nondirectory information; however, some information such as disciplinary actions may require additional permission from the student in a written format. Release of information is not required by law.

Also, this release allows verbal access only. Student's signature will be necessary for any written or printed documentation such as grades. All permissions granted will stay in effect until they are removed by the student.
